

BASIC AIR KIT

The Basic Air kit is the cheapest system operated by a blowing motor. The motor On/Off is controlled by a pneumatic push that is acting directly on the switch of the blower. The kit is presented with a manifold with integrated fast connectors and with a guide track for installation under the bathtub edge, that are speeding up both the operations of connections to the airjets and of mounting itself. The system is equipped with a safety airloop, available in two different heights 180mm and 400mm, that prevents water infiltrations into the motor. For this purpose a check valve that can be mounted inside the manifold and a safety valve diam. 32 that can be mounted on the motor, are also available. The blower offered in the kit has a very well performing 700W motor, whose low noise can be even further reduced by an optional noise-absorbing filter. The blowing motor is also available in the TOP version with double layer case and integrated noise-absorbing filter, for high-quality applications. All the parts composing the kit are MADE IN ITALY.

ISBAIR12E5 BASIC AIR KIT ECO

Item code	Description	Nr/Mt
1	ISJUCL102P5 AIR JET COMPLETE CHROME	12
2	RR90N10000 FAST CONNECTING ELBOW 90°	12
3	DAARD10120 FAST CONNECTING MANIFOLD 12 EXITS	1
4	SDAX00000 MANIFOLD INSTALLATION PLATE	1
5	VNRCOLL28 NON-RETURN VALVE FOR MANIFOLD	1
6	SALH400N SAFETY AIRLOOP H. 400	1
7	MANDIR3232 SMOOTH RUBBER COUPLING	1
8	MANDIRFD32 STRAIGHT RUBBER COUPLING+ADAPTER	1
9	MAN90FD32 90° RUBBER COUPLING+ADAPTER	1
10	TPECL10700 AIRSYSTEM PIPE DIAM. 7X10	10
11	TUBN280000 BLOWER PIPE DIAM. 28	1
12	ECO 2 700 SW BLOWER 700W +SWITCH	1
13	ISPST020105 PNEUMATIC PUSH CHROME	1
14	ISRTURA0203 PVC RAUCLAIR PIPE INT. DIAM. 3	1
15	ISRFA000415B INOX BIF. CLIP 415 FOR AIR SYSTEM	4

Option

As optional choice you can choose the smaller safety airloop with height 180mm, that allows mounting in very small spaces; you can mount an additional filter to the blower to get a more silent performance of the motor; as additional safety device the safety valve for blower with a connection diam. 32mm can be installed. Please, have a look at the codes shown in the table:

OPTION

Item code	Description	Nr/Mt
1 SILBLO0000	BLOWER SILENCE FILTER	1
2 SALH180N	SAFETY AIR LOOP DOUBLE "S" H 180 D.32	1
3 VNR32M32F32	CHECK VALVE CONN. DIAM. 32/32	1
