

ISJCO6PLR10

MANIFOLD

Air system manifold with 6 outlets with integrated fast connecting mechanism. Complete with a support to facilitate installation under the bath. The module allows the connection of more manifolds to increase the number of available outlets:

Connection pipe: Ø mm. 32

Outlets: Ø mm. 10

Item ISJCO6PLR10 6-outlet manifold

Item ISJCO66PLR10 double 12-outlet manifold

Available also in PVC suitable for glueing.

Item ISJCO6PVC10 6-outlet PVC manifold.

DAARD10060

MANIFOLD

6-way airsystem manifold with integrated fast connecting couplings, positioned in two rows, in order to make it more compact.

Connection pipe: Ø mm. 32

Outlets: Ø mm. 10

Item DAARD10600 6-way airsystem manifold

DAARD10080

MANIFOLD

8-way airsystem manifold with integrated fast connecting couplings, positioned in two rows, in order to make it more compact.

Connection pipe: Ø mm. 32

Outlets: Ø mm. 10

Item DAARD10800 8-way airsystem manifold

DAARD10120

MANIFOLD

12-way airsystem manifold with integrated fast connecting couplings, positioned in two rows, in order to make it more compact.

Connection pipe: Ø mm. 32

Outlets: Ø mm. 10

Item DAARD1002 12-way airsystem manifold

SDAXX00000

INSTALLATION PLATE

Manifold installation plate.

EGDAX00000

CONNECTING COUPLINGS

Connecting coupling and o-ring to allow the mounting of more manifolds together.

VRNCOLL28

NON-RETURN VALVE

Non-return valve to be assembled inside the air-system manifold
